Monday - 10 May 1965

Page 4

11. [redacted] Handcarried to Miss Scanlon, in the office of Senator Robert F. Kennedy, Personnel's letter to an inmate of McNeil Island Penitentiary who offered to be of service to the Agency. Miss Scanlon was most appreciative of the attention given this item.

12. [redacted] Colonel Glenn Smith, Senate Preparedness Investigating Subcommittee staff, called to say that Chairman Steacie was being pressed by newsmen for a statement on the display of weapons which was put on public display by the Soviets the other day. DD/I prepared an unclassified non-attributed statement which was handcarried to Colonel Smith at 2:00 P.M. He felt the statement would be most helpful.

13. [redacted] Called Representative Roman C. Pucinski with regard to his referral of the personal resume on [redacted] (former employee of the Peace Corps). I advised Mr. Pucinski that, as I had anticipated, the Agency as a matter of cooperation with the Peace Corps would not consider for employment here a former employee of the Corps. Pucinski seemed to appreciate the necessity for this policy and thanked us for looking into the case.

Pucinski picked up on our prior conversation concerning the Dominican Republic saying that he felt the U.S. handled this situation in a superior fashion and he felt notice should be taken of this in the public medium. He is seriously considering a statement on the floor of the House but said he would like to receive a briefing from the Agency on the Dominican Republic to be certain that he didn't upset any apple carts or make erroneous statements. He asked if we could be of assistance in providing a briefing for him today or tomorrow. I advised him I would look into this and be back in touch with him.
